The projects are items they will actually use and sewing school #2 is just as great. Perfect gift for a boy or girl, as I sew myself most of the things needed we already have but this was the first time she learned how to start and finish a project with a machine and by hand all by herself with a pattern. It will last for years as it shows the simple basic ways to make everything but also ...

We wanted to make a interactive display of the fun that can be had with DIY projects to take to Sydney Mini Maker Faire. We decided to do so by utilising the TinkerKit Braccio from Arduino.org, alongside some 3D Printing ingenuity, for an engaging display for all ages. Enter the Hipster Coaster in all its glory. All the parts were printed seperately on our family of Lulzbot 3D Printers, later ...
