The Boeing 737 is a twin jet narrow-body airliner built by Boeing. At first, Boeing was making it to be a shorter, cheaper airliner than its 707 and 727. However, the 737 has become a family of nine different models. The number of passengers it can carry ranges from 85 to 215. The 737 is the only narrow-body airliner that Boeing is making. The only types of 737 that Boeing is still making are ...

About the Boeing 737-700. The first of the new next-generation (NG) Boeing 737s, Southwest Airlines, was its launch customer in December 1997. The aircraft replaced the Boeing 737-300, which could seat 126 passengers in a two-class configuration or 149 passengers in an all-economy class layout similar to the Airbus A319.
